

# PROJECT MANAGEMENT APP

KULDEEP UPADHYAY

## Phase 6: User Interface Development

Goal: Design a user-friendly UI with Lightning tools and components.

- Build the Project Management App using Lightning App Builder.
- Add tabs for Projects, Tasks, and Resources for easy navigation.
- Customize home page with a dashboard of project KPIs.
- Design record pages with task lists and related project info.
- Create utility bar shortcuts for quick task creation.
- Develop LWC components for searching and filtering tasks.
- Enable navigation service for seamless record access.
- Wire Apex methods to fetch project data into LWC.
- Test responsiveness and accessibility across devices.

## App Launcher

Search apps or items...

[Visit AppExchange](#)

 <b>Service</b> Manage customer service with accounts, contacts, cases, and more	 <b>Project Management</b>	 <b>Marketing CRM Classic</b> Track sales and marketing efforts with CRM objects.
